

## Uyanda Maseti

Software Engineer

### Summary

Creative, detail-oriented, software engineer with a deep in AI. Proven track record of creating and implementing successful full stack web applications. Looking to bring my skills to a tech company with global reach.

### Work Experience

Software Engineer at 100Devs, Johannesburg Gauteng

October 2021 – Present

- Collaborated with a team of developers to build modern and responsive web application using best practices.
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

### Recent Projects

#### Dotcom (Full stack Web App)

Cashier can take orders from customers with their names. Employees can login to the app and see orders that have been made, mark them as complete. Orders that have been completed will be logged with the employee name that completed the order.

#### 100Hours project online shopping system (Full stack Web App)

An ecommerce web application.

#### Note taken (Full stack Web App)

User can login to their profile and find their list of notes. They can add new notes through an input, which they can then edit or delete all their notes in their profile.

#### Other projects

Small Lakes Casino Virtual Slot Machine, pop music web app with NASA API integration. On-demand background colour changer for partnered Twitch streamer, and many more.

### Software Engineer at Dotcom Solutions, Mthatha EC

April 2025 - Present
